Let's talk

about sexual harassment

**Have you witnessed or experienced harrassment?
Did you talk or do anything about it?**

Why are we not talking about it?

- Too small or too innocent
- The patient can't be held responsible
- To much fuzz
- It`s all part of the job
- You don't want to get the patient into trouble

How to talk about it:

- I felt bad when you said or did that
- You went a little too far there
- I have to stop you here, because what you said and how you said it makes me uncomfortable
- May I point out to you something that I have noticed?

Who to report to:

- Manager
- HR department
- Safety representative
- Deviation registration

Nothing is too small to talk about
